2024 SOLAR ECLIPSE

FIRST ALERT WEATHER **4**

APRIL 8, 2024

MAPIMI “ZONE OF SILENCE”

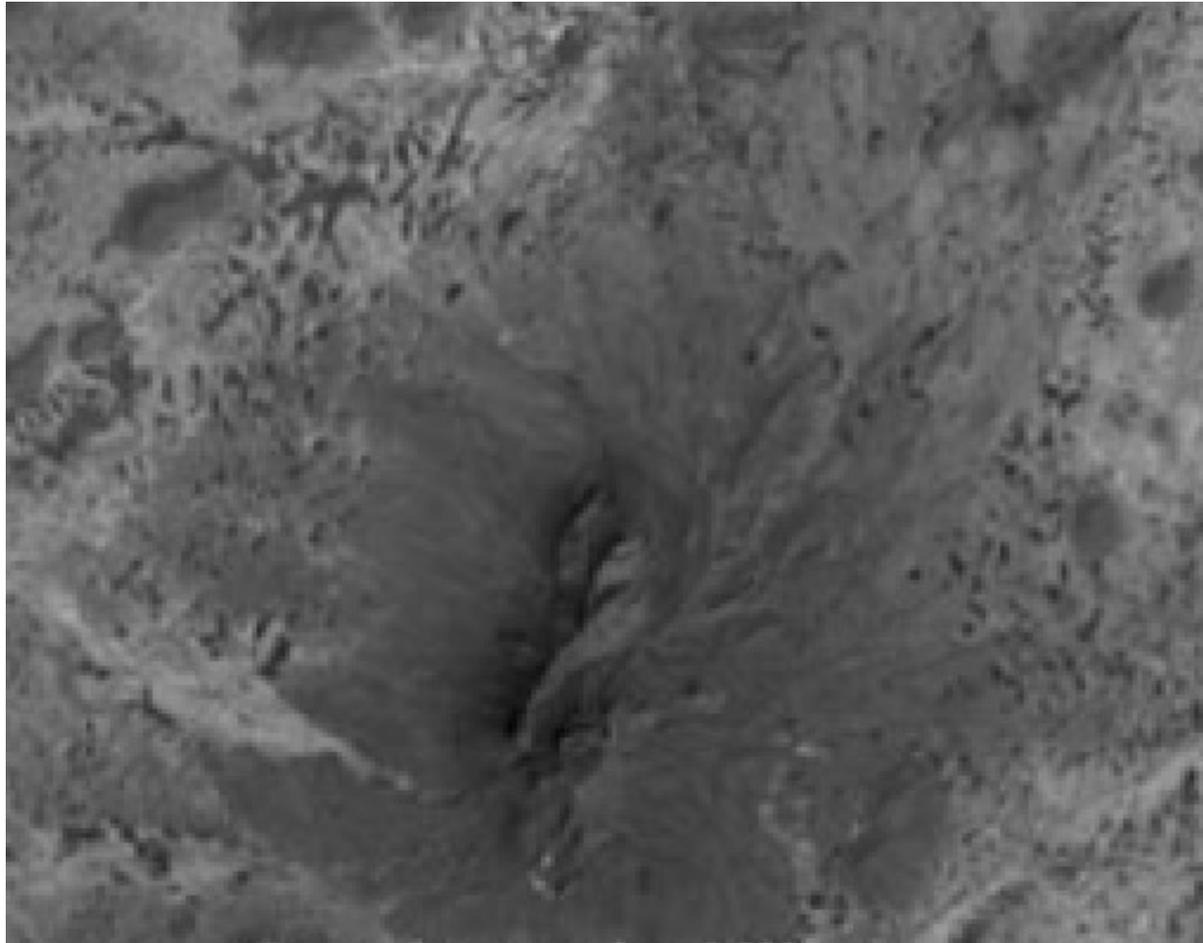

—Location of the Mapimí Biosphere Reserve at the junction of the states of Durango, Chihuahua, and Coahuila, in Chihuahuan Desert in Mexico, where 8 mule deer (*Odocoileus hemionus*) were monitored using radiotelemetry from 2012 to 2014. San Ignacio Hill, where this study was conducted, can be seen in the image.

Blue line:

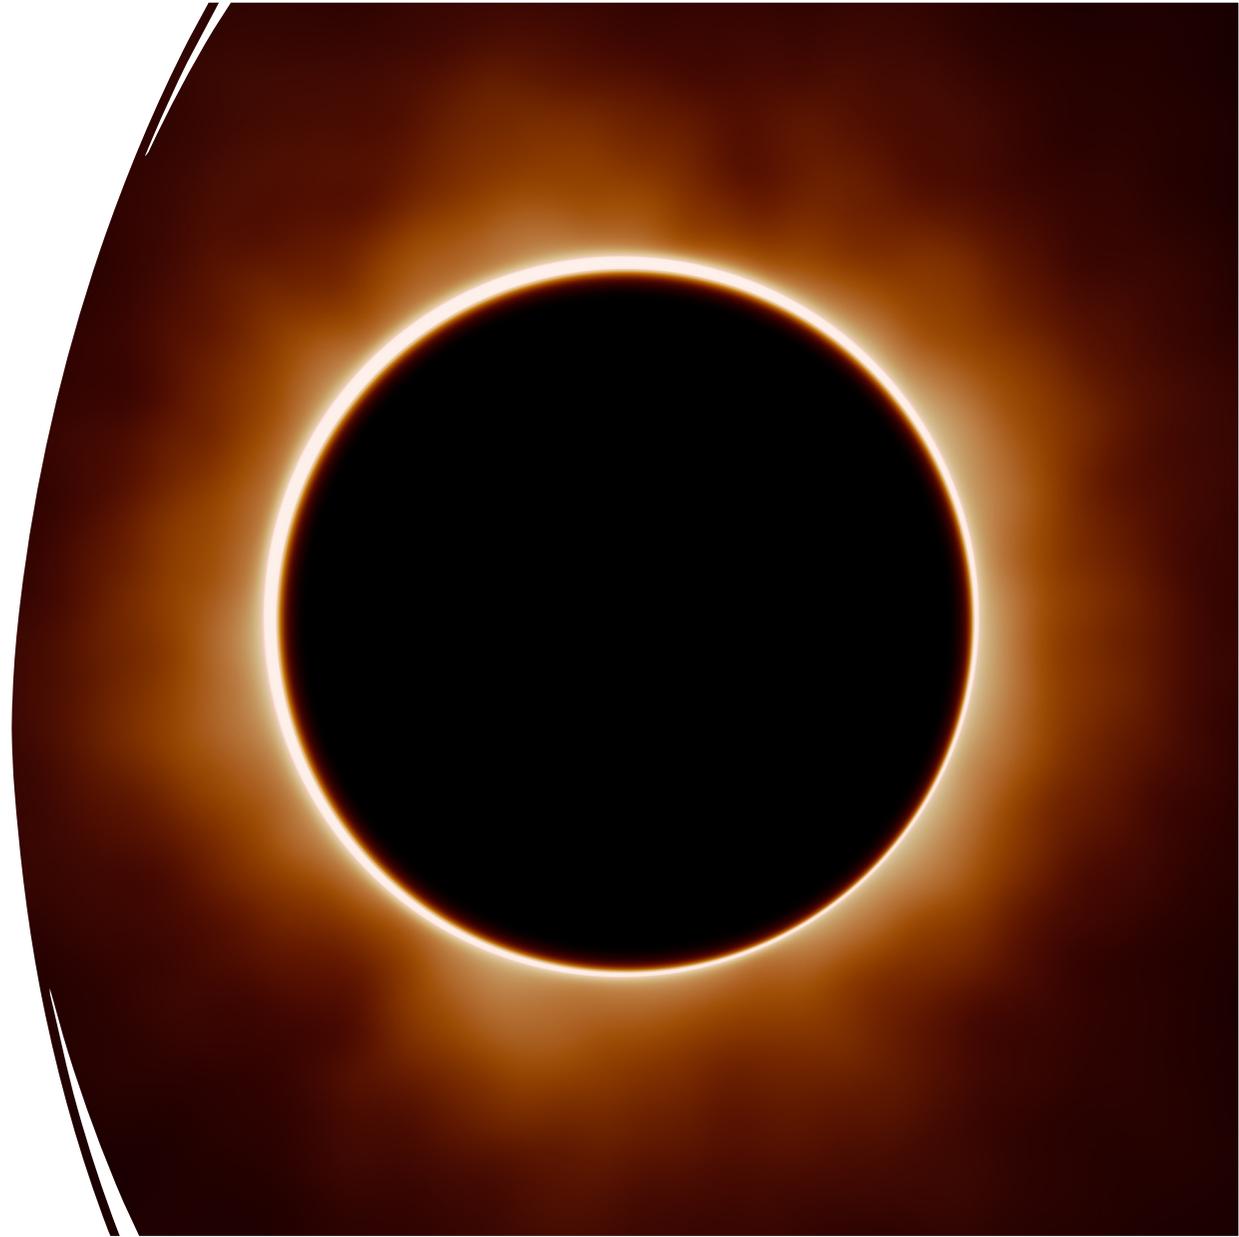

In 1981, a 1,700 mile crack across America was discovered using modern day gravity mapping satellite data – the Montana to Florida Lineament, or the Missouri Gravity Low.

Black line:
The New Madrid Fault Line.

It would appear that the intersection of the fault lines, and the intersection of the paths of the 2017 total eclipse with the 2024 total eclipse are the same!

What to do on Monday April 8, 2024?

- Set your clear intentions for our new world, free of the false matrix. Stand in your power and shine your light
- Dissolve into love and hold the frequency all day
- Be the lightening rod between Source, via the Grand Central Sun which is connected to our Sun and the Universal Sun and the Earth's gridlines. Shine your light infused with Christ consciousness into the gridlines of the Earth
- Join with Dr Alex Ling's Hum for Humanity, by holding a middle C (C4) hum for the full 4 mins, 28.1 secs of the total eclipse at Mapimi (<https://hum2024.com>)
- Sit in silence with your full presence and be conscious about filling that space with your whole being
- Join with others and create groups where you can work together as one
- A mix of some or all of the above!

Please continue with your intention work for humanity till April 22, 2024, when they finish their 'CERN work'!
