

ALLIANCE FOR NATURAL HEALTH

BRAND NEW
SERIES OF EVENTS!

DEVELOPING YOU TO FUTURE-PROOF YOUR PRACTICE

The right knowledge and the right tools are essential components of any successful practitioner business. Many practitioners are looking for additional tools for their toolkits. The Alliance for Natural Health International (ANH-Intl) is proudly launching a bespoke series of CPD events and client-facing materials.

EVENT 1: 07/10/17

Leading-edge masterclass in functional lab testing & personalised protocols

We're very excited to feature a top line up of experts joining us on this first event in October. We'll demonstrate practically why genomic and functional testing is the bedrock of personalised, individualised and targeted protocols.

Register today: anhpractitionertools.eventzilla.net

1. Leading-edge masterclass in functional lab testing & personalised protocols

This day of inspired learning may just be exactly what you've been waiting for! Delivered in the beautiful, natural setting of Sheepdrove's Eco Centre, with deliciously healthy organic food. Our thanks go to our speakers and our event partners, Nordic Laboratories, Functional DX and Regenerus Laboratories.

Ample interaction and Q&A throughout the day with the speakers and facilitators.

Saturday
07 October 2017
9:00 AM - 5:30 PM [GST]

Sheepdrove Eco
Conference Centre
& Organic Farm
Lambourn
Berkshire, UK

MEET THE SPEAKERS

UMAHRO CADOGAN

Best-selling author, world class lecturer and functional medicine expert

ROBYN PUGLIA

Nutritional therapist, certified functional medicine practitioner

JONATHAN COHEN

Registered nutritional therapist, nutrigenetic counsellor

ROBERT VERKERK PHD

Executive & scientific director, ANH International

SPECIAL GUEST

BEN BROWN ND

Science writer, presenter, author and functional medicine practitioner

THE LEARNING

- 1 Increased confidence in assessing the status of the 6 underlying determinants of chronic disease
- 2 Evidence-based interventions for individualising and optimising the above
- 3 Making the most of functional testing – the bedrock of individualised practice – from selection to interpretation to protocol
- 4 Relate and apply theory to practice in a practical setting using 'live' case studies with experts who have decades of clinical experience between them
- 5 Supplements: simple criteria to make better choices

Plus! The journey continues. FREE post-conference webinars to follow client progress and continue the learning.
